

/home/ms/openpose/include
/openpose/net/maximumBase.hpp

```
graph BT; A["/home/ms/openpose/include<br>/openpose/net/headers.hpp"] --> B["/home/ms/openpose/include<br>/openpose/net/headers.hpp"]; B --> C["/home/ms/openpose/include<br>/openpose/net/maximumBase.hpp"]
```

The diagram illustrates the include chain for the OpenPose headers. It consists of three rectangular boxes arranged vertically. The bottom box contains the path `/home/ms/openpose/include /openpose/headers.hpp`. A blue arrow points upwards from this box to the middle box, which contains `/home/ms/openpose/include /openpose/net/headers.hpp`. Another blue arrow points upwards from the middle box to the top box, which contains `/home/ms/openpose/include /openpose/net/maximumBase.hpp`. The top box has a gray background, while the middle and bottom boxes have white backgrounds.
